

Class D: Freshwater

I. Mats Forsberg, SWE

Sharp pike that has really spotted the photographer. A bit ghostly as the background disappears into darkness and a nice reflection on the surface.

2. Pekka Tuuri, FIN

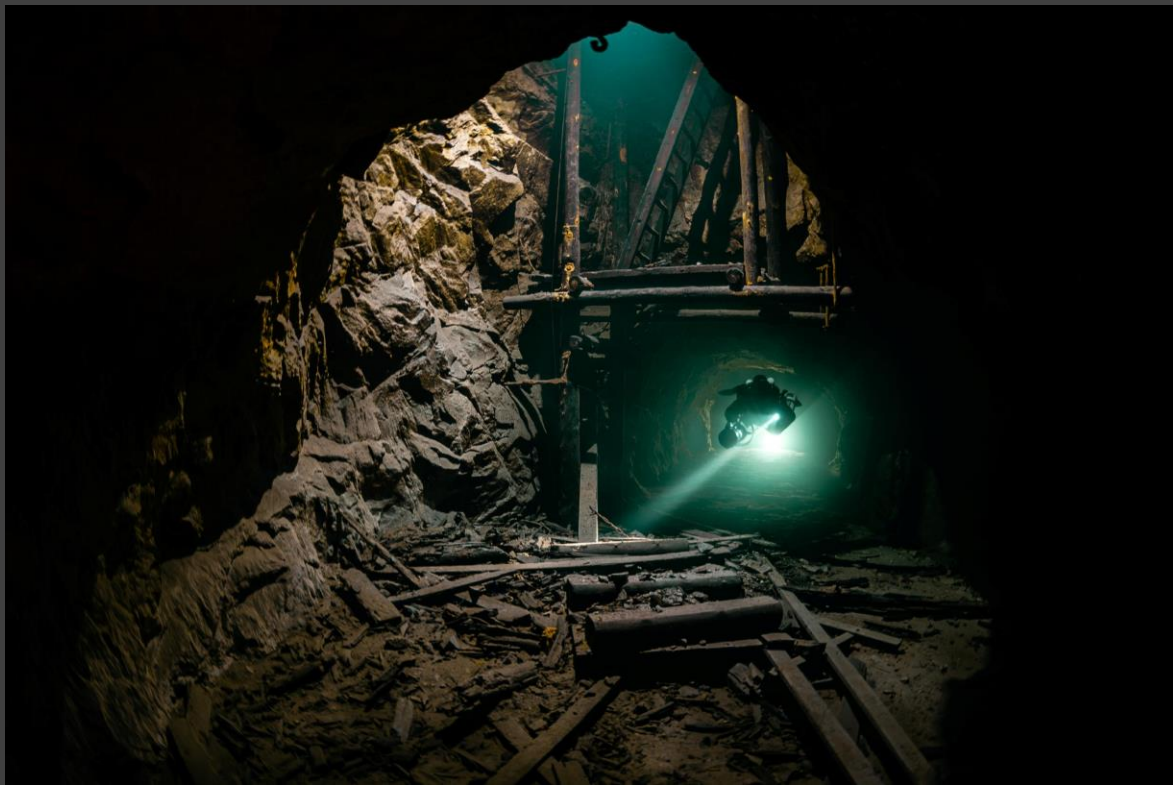

Image with good speed and action.
Slight blur in the lower jaw
emphasizes the speed in the picture.

3. Johan Björklund, SWE

Beautiful image where it seems like you are in a forest with flying fish. Lovely use of the surface refraction that divides the two worlds.
